Go-Anywhere Portable Filtration

Industrial Air Solutions' SPCBD-1000/2000, portable cartridge backdraft fume and dust collectors are engineered for effective, economical control of dry dusts, fume, and smoke generated from sanding, polishing, buffing, grinding and other processes.

Ideal for light to moderate concentrations of dry contaminants, fumes, vapors, smoke and particulate are drawn down and back—away from the operator's breathing zone.

**Made Completely
in the USA!**

And these ultra-portable units are designed to go where you need them. Easily deployed on the shop floor and even transported in a standard utility van, the SPCBD-1000/2000 enable you to meet OSHA requirements without inhibiting productivity.

Low Maintenance Reliability

Highly efficient cartridge filters trap particulate down to .5 microns (with many filter options, including HEPA and carbon), while pulse-jet compressed air blasts keep filters clear and operating at optimum efficiency.

The SPCBD-1000 offers true plug-n-go convenience, with a power cord and switch,
